Interests:

I've always been fascinated with the area of self-help and motivation. I just devour books on the subject and have devoted hours to learning from the best in this subject. I like the most practical advice that works for both my personal life and my business life. My favorite of all is the movie *The Secret*, it never fails to uplift me! However I'm also a big believer in action so my favorite books are the practical ones that give step-by-step help that's easy to follow.

Hobbies:

For years I did dancing (ballet, jazz, ballroom and latin) but now I mostly spend my spare time at the gym, hanging out with friends, scrapbooking and travelling. I love going back and visiting friends and family in New Zealand and I also love exploring the States and Europe. There is just so much to see!
