"In just 12 short months I went from the brink of bankruptcy to living the life I'd dreamed of way back when I first went into business for myself"

Imagine:

Rebecca Kepple teaching wellbeing business owners at a workshop

Attracting clients so effortlessly it seems crazy

Selling thousands in retail every month even if your current sales are a zilch

Having the time and income to provide the phenomenal service you know you can offer

Never ever again having to 'borrow from Peter to pay Paul'

Waking up in the morning to a 100% completely booked-up appointment schedule

Being able to pay bills easily (and on time!) every single month

Having a client list so loyal that nothing short of the world stopping spinning will stop them booking in with you

This is what being in business should be all about. And it can be.

I've discovered the hard way what works and what doesn't and now I want to share my proven secrets to success with you.

From: Rebecca Kepple

Do You Wake Up In The Morning  
Dreading An Empty Schedule And More Bills Arriving In The Mail?

It doesn't need to be like that.

By following a proven plan that has worked time and time again in YOUR industry, you can take control again.

In fact, running a clinic or salon can actually be the easiest money you ever make... Just one promotion I ran generated \$5,694 in treatments &ndash; and a further \$3,210 in retail sales. I'm not telling you this to boast, but to impress upon you how quickly and easily money can be made while providing fantastic service.

When you've got those insider secrets, instead of struggling for new clients, you can have more paying, happy clients than you can imagine, then more and more and more... Sounding good?

But if you're not already inundated with bookings, you've probably got lots of questions about how to get more new clients, which promotions work best, how to price them, how to get your existing clients to rebook, how to motivate your staff (if you've got them and if you don't how you can get to the point where you do!) and how to fill your business with clients that buy buy buy.

I've had so many people ask questions about how to run and promote a profitable business in this industry, that I started doing classes and seminars focusing exclusively on this topic and now I've developed a full Home Study Course where I spill the beans on exactly what steps you need to take to get there.

Filling booking slots and attracting new clients is EASY when you follow the right plan. You don't need any new expensive equipment; all you need is proven strategies that work.

Here's My Story How I Went From Being  
An Inch Away From Bankruptcy To Having To Hire Help To Deal With The Phenomenal Influx Of Clients

Today, I'm finally living the lifestyle I dreamed of when I first when into business for myself. I enjoy my work but I also get to enjoy relaxing and having fun. And that's what being self-employed should be all about... Now I'm not saying I didn't have tough times. I did and I'll be the first to admit it.

Fresh faced and eager from university I bought a tiny little gift and florist shop. Literally only about 12 square foot. It was itsy bitsy but I loved it. However a few months into it, it became all too apparent that I was severely allergic to flowers - to the point that I was sick all the time and had rashes running up both arms from touching the flowers.

I needed out. And fast.

Because I'd had acne most of my teenage and adult life I'd been doing a lot of research into skincare so the logical step seemed to be to purchase a little beauty salon. Which I promptly did.

I thought it was going to be so glamorous... all facials, manicures and lunch with my friends. The reality was painfully different.

I had to learn everything from scratch and I remember one day getting so low on cash I had to change my price list simply because I didn't have enough products to do certain treatments. I bought the clinic by scraping together all the funds I had (literally!) and I hit rock bottom several times before I figured out how to make it work, and work profitably.

Then once I discovered what worked, my business began to rocket. In 18 months I grew that business from tinsey tiny to being one of the leading Spas in the area with 23 full-time team members doing a full variety of services from beauty to holistic, medical, nutrition, life coaching and more!

It was a phenomenal experience and I went on to run several more salons, clinics, spas and health clubs with very similar and in some cases even better results!

Now as you know, it's a pretty close-knit industry so fairly quickly I had people asking me if I could share with them how I was doing it while keeping my clients so happy that they were raving about how great we were. So I did.

And now I've got the bug. I love sharing what I've learned, helping others and then hearing all about their successes. So nowadays that's what I do. I share my knowledge and help others get the same amazing results I've had.

And that brings us back to why we are here! I've put all my secrets together into a 10 class Home Study Course called 'My Profit Soaring Secrets'. It's step-by-step, it's easy and if you want... it's yours.

"The information blew me away..."

"I found that all the information blew me away. My mind was busy for weeks trying to get all the information in place and putting it into practice. When I sent out my first newsletter I had 3 booking from it and one of them was a new client! and when I did the vouchers out by email I had 5 bookings from clients and 2 bookings from friends and family within the first week! I am very impressed with the information from Rebecca and the professionalism of all the templates and newsletters etc that she provides."

Alison Brown, [www.alisholistics.co.uk](http://www.alisholistics.co.uk)

"I have had the busiest 2 weeks in months..."

"Business is still coming in since sending out the free offer, and I have had the busiest 2 weeks in months, 12 treatments this week, up from 5 last week, which was up from 2 the 2 weeks before that. On average I have done about 3.5 treatments a week this tax year, so a jump up to 12 is incredible! Thank you"

Rosemary, Holistic Healer

"I wish I had heard you years ago..."

"That was inspirational! I just know that you can help me get things going and I wish I had heard you years ago. Speak

soon. Thank you SO much."

Gill Leeden, [www.derma-active.co.uk](http://www.derma-active.co.uk)

"Like having an extra pair of hands..."

"I've only been in business for nine months and your weekly words make it so much easier for me. You are like having an extra pair of hands in my business to spur me on. SO need that!! I'm really focussing on getting in new clients and have already increased my average spend by another £5 per client. It's all about a positive mental attitude and knowing where to put your energies to best effect - I'm a fan!"

Carol, [www.cherishwellbeing.co.uk](http://www.cherishwellbeing.co.uk)

"We can finally stop wasting 10s of 1000s on marketing that doesn't work..."

"Anna and I are really looking forward to working with you and after a long search I believe that you are really going to help. Not only have you given us some fantastic ideas, but also solid practical help - thank-you. I feel sure we are finally on the right track to fulfilling the clinics true potential and we can finally stop wasting 10s of 1000s on marketing that doesn't work and actually increase our turnover."

Helen Cahill, [www.courtney-bell.com](http://www.courtney-bell.com)

"I was blown away by the first class..."

"I was blown away by the first class and have already implemented the free treatments while I was away. I am interested in client retention and loyalty as I feel this is where my weaknesses are. I also love number crunching so am looking at ways to increase client numbers by at least 5 per day, so any help here would be great."
